

LEONARDIA SAFARIS

DEDICATED TO THE HUNTER

INTRODUCTION

Leonardia Safaris is a family operated business and has been operating since 1981 with an impeccable international reputation. The success rate and quality of trophies are legendary. The number of safaris in each area is well controlled to avoid overshooting. The exclusive hunting safaris we offer are carefully tailored to suite your need.

We invite you to book with us in future to make your next safari the best ever.

DURATION OF SAFARI

The average safaris are 7-14-21 days.

Experience has taught us that most hunters try to do too much in to short a period. Once we have a list of the animals you wish to hunt, we will suggest how much time you might need.

All safaris are carefully planned to meet the exact requirements of each individual and are normally booked well in advance. There is no specific hunting season, but March to September is the most popular time. You have a choice of hunts; or we will tailor your safari specifically according to your trophy priorities.

ACCOMODATION AND HUNTING AREAS.

Different species occur in various habitats and areas in South Africa, thus we have several unique areas to obtain the best trophies possible. It is for this reason that it is important to plan your safari according to your trophy requirements and that you should have enough time available to accomplish all that you wish.

All our hunting camps offer accommodation of the highest order. They are comfortable, safe and serviced to cater to your every need. We try our utmost to ensure that you and your party have the exclusive use of the camps and hunting areas.

Leonard and Stephanus combined with their well-trained staff will ensure that you enjoy your stay.

Special dietary preferences are always catered for if at all possible.

Leonard and Fanie with their experience will give you the opportunity to have the hunt of your lifetime
